

Scrum Master Prep Course

Practice Session

The Scenario

Background

- You are a team that is working on the engineering design for a revolutionary mopping bucket
- The company you work at, Trapito Fans decided to work with Scrum
- This is the first moping bucket Trapito Fans has ever launched

The Request

Requirements

1. Wringing attachment
2. Bucket with minimalist, practical design
3. Compatibility with common mop designs

The Preparation

Roles

As Scrum-savvy team members, you will assign the roles needed.

Keep in mind

- The Scrum Master is accountable for establishing Scrum as defined in the Scrum Guide.
- The Product Owner is accountable for maximizing the value of the product resulting from the work of the Scrum Team.
- Developers are the people in the Scrum Team that are committed to creating any aspect of a usable Increment each Sprint.

Activities

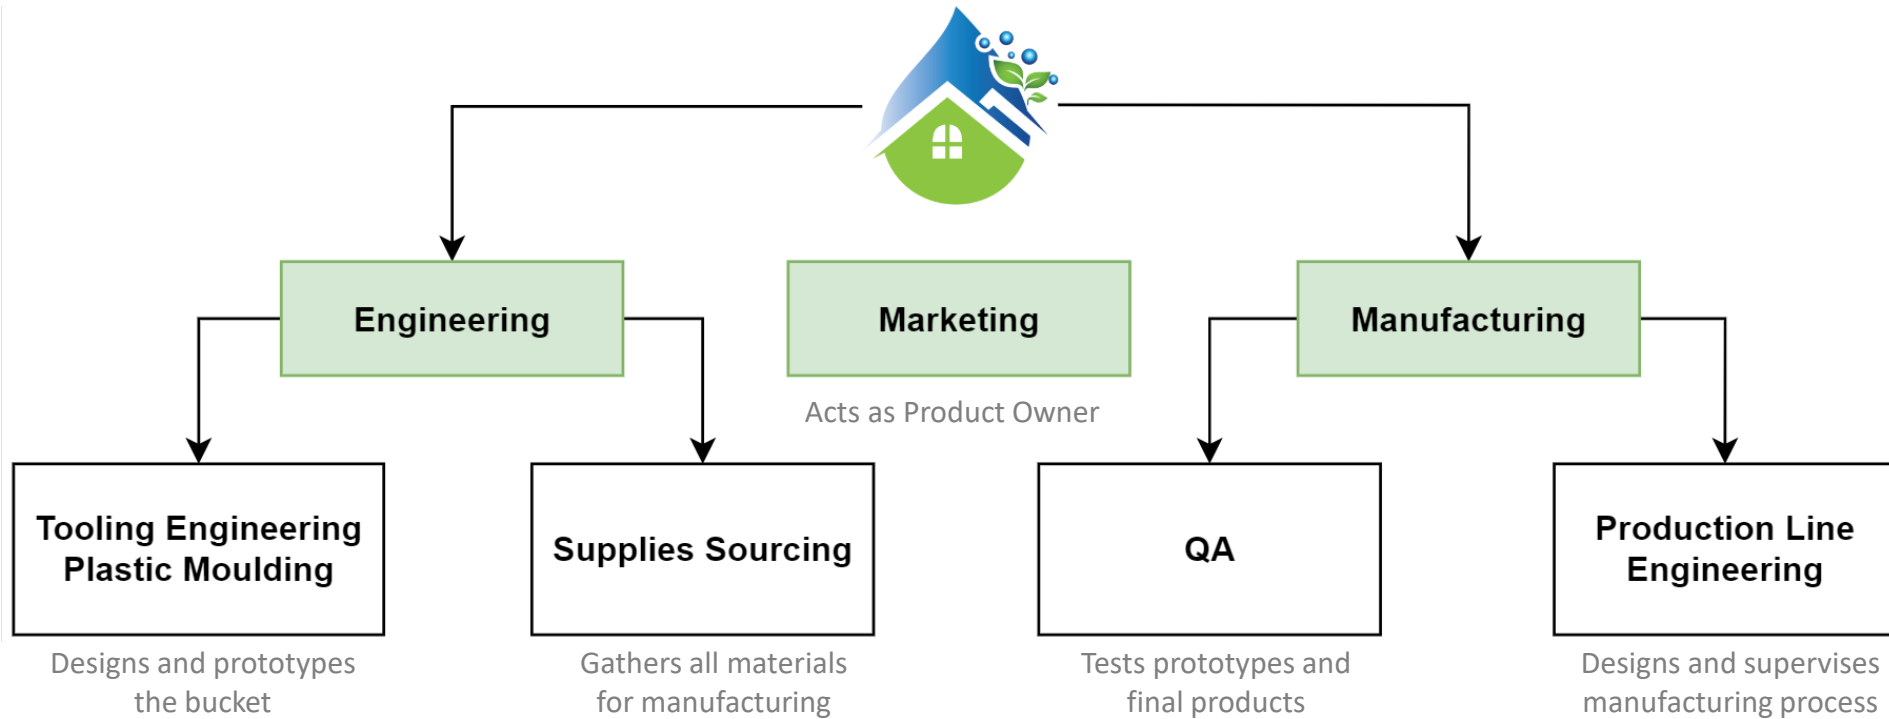

You will decide:

- The activities to be done
- How you will do the events
- Who will be involved and when
- You tell us how you will handle this!!
